02 — BIOGRAPHY

A passion with *no borders*

THE STORY

Vickky is a passionate electronic music lover who has spent years on the dancefloors of Ibiza's most underground scenes. Those nights, watched closely and lived fully, shaped his own identity behind the decks.

He plays house and tech house with a fun, sunny energy: grooves that get people moving from the first track, and sets that adapt to the crowd, the venue and the hour of the night.

Regularly booked for private parties, he has specialised in high-end events, where the atmosphere matters as much as the music.
